All Products Ranked By Profit

Sales vs Profit by Product Type

Sales by Product Type

Key finding: Coffee is the most profitable product type ($74,683), driven almost entirely by **Colombian** ($55,804 profit). **Green Tea** is the only product operating at a net loss (−$231). Espresso products show the widest profit spread — Decaf Espresso performs well (+$29,502) while Caffe Mocha underperforms relative to sales volume.

Regionwise Performance

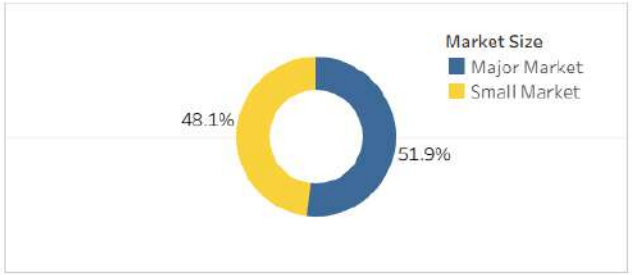

Product Type: (All) | Market: (All) | Month of Date: (All)

Top Sales Region	Top Profit Region	Weakest Region	Top Performing State	Bottom Performing State
West	Central	South	California	New Mexico

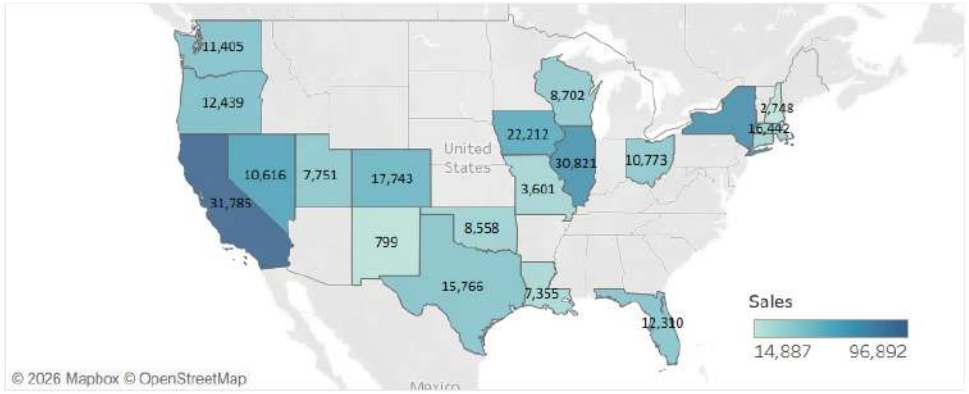

Sales & Profit by Market

Profit by Market Size

Profit by State

Product type × Market region

Market	Coffee	Espresso	Herbal Tea	Tea
Central	23,264	23,501	24,757	22,330
East	30,992	6,244	6,423	15,558
West	8,725	23,870	26,303	15,098
South	11,702	15,005	5,771	

Budget Margin: 14,000 – 40,360

Key finding: **West** leads in total sales ($272K) but Central leads in total profit ($93K) — West's higher costs reduce profitability. **South** is the weakest region overall, and is the only market with a profit budget miss (−$2,562). **California** and **Illinois** are the top two states by profit.

Budget Achievement Summary

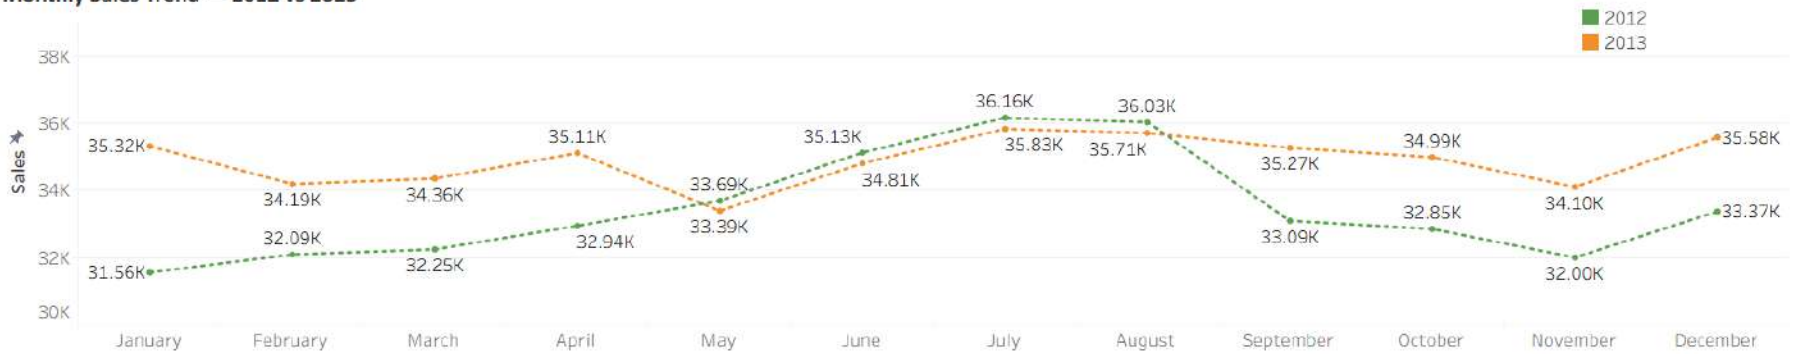

Market	Budget Profit	Budget Sales	Profit	Sales	Profit Variance	Sales Variance
Central	92,580	250,360	93,852	265,045	1,272	14,685
East	56,780	157,900	59,217	178,576	2,437	20,676
South	35,040	98,200	32,478	103,926	-2,562	5,726
West	74,360	239,700	73,996	272,264	-364	32,564

Key finding: Overall sales exceeded budget by **+$73,651 (+9.9%)**, but profit beat budget by only +$783 (+0.3%) — indicating higher-than-expected costs. The **South region** missed profit budget by $2,562 and is the only market to underperform. **West** exceeded sales budget by $32,564 but profit came in slightly under (−$364).

Overall Trend
